# DIAGNOSTIC AGENTS

## FOR

# VENEREAL DISEASES

Rapid and reliable diagnostic methods are essential for the successful control of venereal disease. A dependable test for gonococcal infection is particularly necessary for use with modern chemotherapeutic methods of treatment. The antigens listed below embody the quality traditionally associated with 'Wellcome' Brand Serological Products.

*Kahn precipitation test for syphilis—*

*Gonorrhœa complement-fixation test—*

# TRYPARSAMIDE

## in NEUROSYPHILIS

Tryparsamide—May & Baker, is of value in the treatment of neurosyphilis because of its ability to penetrate the central nervous system through the meninges, and its presence in the C.S.F. in a spirochaeticidally active form.

The product is remarkably non-toxic and non-cumulative and it has been authoritatively stated that optic atrophy is less likely to occur in cases treated with Tryparsamide than in untreated cases of neurosyphilis.

● Tryparsamide is available in:—

Ampoules of 1 gramme 2/3d.

" " 2 " 3/od.

" " 3 " 3/9d.

Containers of 50 grammes 35/3d.

● Also available in boxes of ten ampoules of 1 Gm., 2 Gm., or 3 Gm., at reduced prices.

Less professional discount, plus purchase tax.

★ 'BIPOULE' double ampoules are also supplied at an extra cost of ... .. 6d. each.

# AN EFFICIENT INTRAMUSCULAR ARSENICAL

Trade  
Mark *Acetylarsan* Brand

DIETHYLAMINE ACETARSOL

*Acetylarsan, for the treatment of syphilis in all stages, offers several advantages when the intramuscular or subcutaneous route is used.*

*It is a ready prepared solution of a pentavalent arsenical for intramuscular or deep subcutaneous injection and by these routes is much better tolerated locally than are the trivalent arsenicals.*

*Its administration in appropriate dosage has been reported to lead to the disappearance of spirochaetes from the chancre in six to twenty-four hours, the healing of the primary lesion within twelve days, and of mucous patches of the tongue and lips within ten days.*

## SUPPLIES:

### SOLUTION FOR ADULTS

(each c.c. contains 0.05 gm. of active substance)

Boxes of 10 x 3 c.c. ampoules

Single ampoules of 5 c.c.

### SOLUTION FOR CHILDREN
